Desktop setup

Windows PC | Google Chrome

Use Wosson Telematics in your browser or add an app icon for quick access. You will need an internet connection and your username and password.

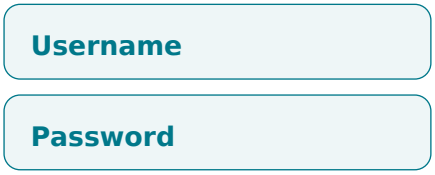

1 Open our website

Open **Google Chrome** and go to **wossontelematics.co.uk**. Click **LOGIN** at the top of the page.

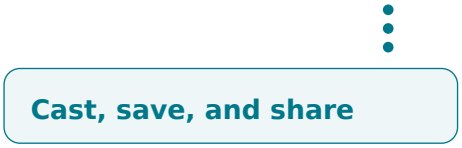

2 Sign in

Enter your Wosson Telematics **username and password**. You can now use the platform directly in your browser.

3 Open the Chrome menu

To add an app icon, open the **three-dot menu** at the top right. Choose **Cast, save, and share**.

4 Install the web app

Choose **Install page as app** and confirm the prompts. Alternatively, click the **install icon** in the address bar if shown.

5 Open Wosson Telematics

Open the app from the **Windows Start menu**. Sign in again if asked. Right-click the app to pin it to Start or the taskbar where available.

Prefer browser access? Installation is optional. In Chrome or Edge, save a bookmark after LOGIN using **Ctrl + D**. If your work PC restricts app installation, use the browser.

Illustrations are simplified guides. Buttons and menu wording may vary.

Desktop setup

Mac | Safari

Use Wosson Telematics in your browser or add an app icon for quick access. You will need an internet connection and your username and password.

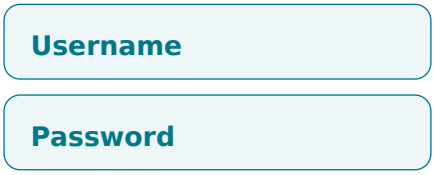

1 Open our website

Open **Safari** and go to **wossontelematics.co.uk**. Click **LOGIN** at the top of the page.

2 Sign in

Enter your Wosson Telematics **username and password**. You can now use the platform directly in Safari.

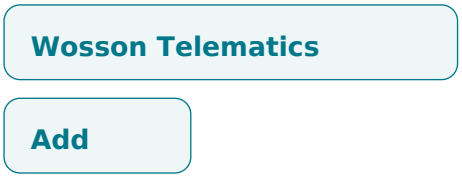

3 Add the app to your Dock

With the platform open, select **File > Add to Dock** in the menu bar. You can also use **Share > Add to Dock**. Requires macOS Sonoma 14 or later.

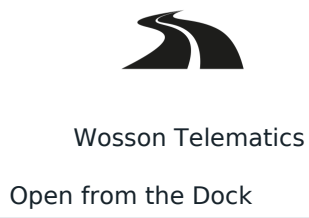

4 Confirm the name

Set the app name to **Wosson Telematics**, then click **Add**. The app icon will be added to your Dock.

5 Open Wosson Telematics

Click the new icon in your **Dock**. Sign in again if asked. Use this icon whenever you want to access your fleet.

No Add to Dock option? Use Safari and save a bookmark with **Command + D**, or use Chrome and follow steps 3 and 4 on the PC page. Need help? Contact us through wossontelematics.co.uk.
